

慶應義塾大学医学部開設100年記念

2017年 **5月11日(木)17:00-18:00**

場所：慶應義塾大学信濃町キャンパス

総合医科学研究棟1Fラウンジ

東京都新宿区信濃町35番地

参加自由・一般公開

司会：佐谷秀行教授

慶應義塾大学医学部先端医科学研究所所長

Qimin Zhan, MD

北京大学医学部長

“Race to Precision Medicine”

In recent years, the concept and practice of precision medicine appears to offer hope for providing better medical approaches for health management, clinical diagnosis and treatment in improving quality of life. A number of investigations by the scientists in different countries have demonstrated that development of precision medicine is able to solve the tough clinical issues, including disease pretargeting drugs, eliminating drug resistance, and prediction of prognosis.

Dr. Zhan's research interest is focused on the molecular pathways involved in the control of cell cycle checkpoint and apoptosis after DNA damage, and the signaling pathways involved in regulation of the maintenance of genomic stability and tumor metastasis. In recent years, Dr. Zhan has paid great attention to the cancer translational study, including molecular diagnosis and personalized therapy. His research has successfully attracted multiple grants from different funding agencies.
