

Director General, Keio University Hospital

Written Oath to Prevent COVID-19 Infection

It is with full understanding that I pledge to comply with the following matters during my training at Keio University Hospital (hereinafter “the hospital”).

1. During my residency, I shall observe the guidelines of the hospital.
2. I shall take my temperature and monitor my physical condition every day and refrain from coming to campus if I feel unwell (fever, sudden loss of taste or smell, etc.).
3. I shall practice proper hand hygiene and wear a face mask, acting on the assumption that I may come in contact with an asymptomatic individual with COVID-19 at any time.
4. I shall refrain from eating with others during my residency and throughout my training. I understand that I am allowed to eat with family members, housemates, or one person with whom I have a close relationship, as long as we are able to keep track of each other’s physical condition and adhere to all hospital guidelines. Avoid places where people "mingle and talk" without masks, as the risk of infection is even higher.
5. I shall refrain from going to places that pose a high risk of infection (events, karaoke, etc.).
6. I shall refrain from traveling overseas during my residency. If I need to travel, I shall follow hospital guidelines and make an international travel request in advance in consultation with the International Office of the Shinanomachi Campus.
7. When using public transportation in Japan, I shall carefully monitor my physical health and take measures to prevent infection, such as wearing a face mask.
8. If I become a person in concentrated contact and feel sick, I shall report to the International Office of the Shinanomachi Campus.
9. If I contract an infectious disease, including COVID-19, I shall report it to the International Office of the Shinanomachi Campus and contact the Health Center
